

FREE Primary Care CME on Celiac Disease

Celiac CME Central: Defining, Diagnosing, and Managing Celiac Disease

- Almost three million Americans have celiac disease but only about 150,000 know they have it.
- Although celiac disease is common, it is greatly under-diagnosed due to a lack of familiarity with modern diagnostic algorithms.
- Left undiagnosed and untreated, people with celiac disease can develop further complications such as osteoporosis, infertility, thyroid disease, other autoimmune disorders, and cancer.

This evidence-based interactive activity includes defining celiac and the spectrum of gluten sensitivity, the **gluten-free** diet, patient case studies, comprehensive resources, and an “Ask the Expert” feature.

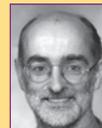

The learning objectives can be found at www.CeliacCMECentral.com

DISTINGUISHED FACULTY PRESENTERS

Daniel Leffler, MD, MS

Director of Clinical Research
The Celiac Center at BIDMC
Division of Gastroenterology
Beth Israel Deaconess Medical Center

Joseph A. Murray, MD

Director, Celiac Disease Program Research
Clinician Investigator,
Division of Gastroenterology and Hepatology
Professor of Medicine and Immunology
College of Medicine
Mayo Clinic

Michelle Pietzak, MD

Assistant Professor of Clinical Pediatrics
Division of Gastroenterology and Nutrition
Keck School of Medicine
University of Southern California

Jointly sponsored by

**NATIONAL FOUNDATION
FOR CELIAC AWARENESS**

This activity is supported by educational grants from Quest Diagnostics and ALBA Therapeutics. This initiative is partially supported by a grant to the Celiac Center at Beth Israel Deaconess Medical Center from the Sidney E. Frank Foundation.

This **free** on-demand web activity is available through **JULY 19, 2013**

Physician Continuing Medical Education

Accreditation Statement

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of Postgraduate Institute for Medicine (PIM), Impact Education, LLC and National Foundation for Celiac Awareness (NFCA). PIM is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation

Postgraduate Institute for Medicine designates this educational activity for a maximum of 1.5 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure of Conflicts of Interest

Postgraduate Institute for Medicine (PIM) requires instructors, planners, managers, and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by PIM for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.

Create a Trained Multi-Disciplinary Team

Celiac CME Central offers accredited training programs for all clinical staff that are tailored to each discipline's needs. Learning modules are ideal for hospitals, residential facilities, the private practice, and individual providers.
