

GREAT Foodservice

A gluten-free industry initiative of the
National Foundation for Celiac Awareness

GREAT GUIDES

GREAT Guides are trained members of the NFCA Team located throughout the United States that assist kitchens, foodservice outlets and members of the GREAT Association in developing and growing gluten-free initiatives.

GREAT BUSINESS ASSOCIATION

The GREAT Association leads manufacturers through the steps that they need to follow to safely provide a branded gluten-free product to the foodservice and grocery industries. It offers a network of individuals and companies who are experts in specialty areas of the gluten-free industry. Only members of GREAT Association have access to this network.

GREAT DIETITIANS

GREAT Dietitians prepares dietitians in foodservice to lead direct food programs which address the needs of those on a gluten-free diet. In addition to its focus upon the foodservice industry, GREAT Dietitians also touches upon the skills a dietitian might use in a clinical setting.

GREAT KITCHENS

GREAT Kitchens takes chefs, bakers and managers through a systematic curriculum that provides specific protocols for preparing gluten-free foods. This online program includes a toolkit containing a narrated training PowerPoint for managers and a bi-lingual (English/Spanish) training DVD for all new hires including wait-staff.

Join us at the table!

Learn how you can serve the 10 million people whose families are on a gluten-free diet. Visit www.CeliacCentral.org/great to learn more or call us at 215-325-1306 x300
